COMMUNICATIONS

Model 2401-28 - Telex Headset

Heavy duty headset with boom microphone and color-coded dual banana plugs to mate directly to Amcom communicators.

- Heavy Duty Telex Headset **2401-28**
- Headset for Internal Chamber Use **2401-31R**

Model 2460-28 - Headset and Boom Mic

Light and comfortable headset for extended wear. Boom microphone pivots up and down only. Vinyl cushioned adjustable ear pads and rubber coated adjustable headband. Includes approximately 4ft. straight cord.

- Headset w/ Dual Banana Plugs **2460-28**
- Headset for Internal Chamber Use **2460-31R**

Model 2821-28 - Remote Push-to-Talk Module

Provides tender mobility around the dive site while maintaining constant communications with the divers when used with an Amcom radio and a headset. Also available as a "Walk & Talk" module when you are operating in 4-wire mode and using Simulcom communications — no need to push a button.

- Remote Push-to-Talk w/ 25' Cord **2821-28**
- Walk & Talk w/ 25' Cord **2822-28**

Model 2405-28 - Push-to-talk Microphone

Hand-held noise canceling push-to-talk microphone provides excellent sound clarity to the divers when used with any Amcom Communicator. Two color-coded banana plugs that mate directly to the color coded inputs of all Amcom radios.

Push-to-talk Microphone 2405-28
