

RADIATION-TOLERANT CAMERA

R981 COMPACT™

System Camera

The R981 Compact™ camera range builds on the success of the standard R981™ but offers a full radiation tolerant pan, tilt and zoom camera with a smaller sized envelope. Ideal for locating in areas where space is at a premium, we have combined the camera and pan and tilt into an integral unit and provided three positions for additional lights and microphone. The R981 Compact™ can be configured into multi camera configurations, or a single camera system can be supplied.

Mirion is the world's most experienced supplier of large turnkey television surveillance systems to the nuclear industry.
