Submersible Miniature Caisson Gauge

The Submersible Miniature Caisson Gauge is engineered to withstand aggressive environments whilst delivering readings accurate to within 1%.

Housed in an all brass casing 2½" / 63mm in diameter with a ¼ inch *NPT rear centre connection, these gauges are specifically designed for clamp ring, panel mounting on the outside or inside of diving bells for on-board gas management.

They are also suitable for use inside air or saturation chambers for measuring true storage cylinder or gas supply pressure regardless of ambient changes.

These extremely robust life support instruments are available in various ranges from 6 Bar up to 400 Bar.

* BSP fittings are optional. Please discuss at time of order.

Bell External Pressure Gauge

Bar Range	Order Code
0-6 Bar	DD320022
0-10 Bar	DD320010
0-25 Bar	DD320017
0-30 Bar	DD320020
0-40 Bar	DD320009
0-60 Bar	DD320016
0-100 Bar	DD320011
0-160 Bar	DD320018
0-200 Bar	DD320019
0-250 Bar	DD320012
0-300 Bar	DD320013
0-400 Bar	DD320015
