Bulletin #9 of 2022. July 11, 2022

NEW PRODUCT BULLETIN

P/N 500-800 Surface Supplied MOD-1

Products Affected: None

Kirby Morgan® is very pleased to announce the Surface Supplied MOD-1, the latest addition to our product line of M-48 Modular Full-Face Masks. The Surface Supplied MOD-1 is designed for the dive team requiring a lightweight and durable commercial diving mask. An advanced MOD-1 mask model with specialized passages that allow venting the upper eye cavity is paired with a very comfortable extra stretchy 7 mm attached hood and advanced Surface Supplied Pod. The new Pod is constructed of high-quality materials, including Titanium and specialty polymers to increase durability and eliminate corrosion. The threaded inserts in the jaw frame are used to securely fasten the pod to the mask, unlike other M-48 configurations that allow pods to be removed and replaced by hand without the use of tools. This pod is fixed in place but is easily removable for any required service or conversation to our SCUBA or Rebreather pod.

This unique Surface Supplied Pod incorporates a side block with two inlets. One for the main gas, and the other for the EGS supply. A complete, modular communications system is neatly tucked in close and well protected, and terminates into a newly designed KMDSI 4 pin waterproof connector.

The oral cavity has an extremely low volume that greatly reduces residual levels of CO₂. The demand regulator is nearly identical to the KMDSI balanced SCUBA second stage with most components being interchangeable.

Hundreds of hours of field testing have been logged by working commercial divers. The Surface Supplied MOD-1 has been laboratory tested and has proven to exceed the stringent performance requirements as set forth by the United States Navy and the European Union's CE requirements for Surface Supplied diving.

**“ THE MOST COMFORTABLE FACE MASK FOR
DIVING AND BREATHING WE’VE EVER WORN.
THIS MASK FEELS WEIGHTLESS AND
DOES NOT LEAK EVEN UPSIDE DOWN,
NO WEIRD PRESSURE ON MY FACE,
11 STRAIGHT HOURS IN THE WATER
IT WAS PERFECT. ”**
